# LETTER FROM THE FISH FOR A CURE CREW

Dear Friends of F4AC,

Each year, our community comes together at Fish for a Cure (F4AC), now in its 18th year, to raise vital funds for the Cancer Survivorship Program at Luminis Health Anne Arundel Medical Center's Geaton and JoAnn DeCesaris Cancer Institute. This event, comprised of the Paul C Dettor's Captain's Challenge and Shore Party, has raised over \$5 million dollars since 2006, and we couldn't be more grateful for the support of the F4AC Board, event sponsors, and our community.

Cancer affects every part of a person's life. LHAAMC's donor-funded Cancer Survivorship Program provides vital social, emotional, fiscal, and psychological support to our patients and their families as they navigate treatment, recovery, and survivorship. Annually, more than 2,000 oncology patients and their families participate in these programs, finding much-needed comfort, education and expert help with cancer's many challenges.

As a philanthropic partner of F4AC, your impact is direct – every dollar raised through F4AC helps thousands of cancer patients in our community with services and programs including:

- **Nurse Navigation** - Nurses guide patients and their families through their cancer journey by communicating with primary care doctors and specialists and by interpreting complex care plans so that patients can make careful and informed decisions.
- **Nutrition Counseling** - Dieticians and nutritionists educate patients about dietary requirements, meal plan design, alternative food choices, and supplements.
- **Psychosocial Well-being** - Oncology social workers help patients cope with the challenges that come with a cancer diagnosis. They provide supportive counseling, financial assistance information, and referrals to helpful community resources.
- **Oncology Rehabilitation Services** - This program includes physical therapists, occupational therapists, and speech language pathologists, all of whom focus on improving quality of life for cancer survivors.

With your help, we can continue to provide essential patient and family-centered care programs and services to our friends, loved ones, and neighbors in their time of greatest need. We invite you to join us as a Fish for a Cure sponsor and position yourself as a community leader in support of cancer care and survivorship at LHAAMC.

Because of your generosity, our patients and their families will not only survive – they will thrive.

With heartfelt appreciation,

*Fish for A  
Cure Crew*

## Fish For A Cure and Dormie Network

As a Fish For A Cure (F4AC) sponsor, your partnership is critical in supporting the Cancer Survivorship Program at Luminis Health Anne Arundel Medical Center's Geaton and JoAnn DeCesaris Cancer Institute.

Fish For A Cure has partnered with the Dormie Network Foundation to offer our valued sponsors and community partners who have committed \$7,500 or more to F4AC with a unique benefit option of a one-year private destination golf membership.

With the one-year membership, the \$20,000 initiation fee and \$10,000 annual fee is waived. If the sponsor chooses to join after the F4AC benefit year is completed, then the sponsor only pays the annual fees going forward. The initiation fee is waived for the entirety of the membership.

## One-Year Private Destination Golf Membership

Dormie Network Foundation offers far more than just 18 holes: each club creates customized experiences for entertaining—and impressing. It's the most highly curated overnight experience in private destination golf.

### Membership gets you access to:

- Six nationally ranked courses designed by master architects.
- Onsite cottages in various sizes per club, with four master suites, fireplace, fully stocked bar, and private patio and firepit.
- Regionally inspired, seasonal farm-to-course menus and a creative cocktail program to be enjoyed at the clubhouse, in a private dining space, or at your cottage.
- Fully stocked golf shops, club fittings, personal shopping, custom orders, corporate merchandising, and cottage gifts for your stay.
- State-of-the-art practice facilities and personalized clinics.
